

**REMARKS**

The Amendment, filed in response to the Office Action of October 15, 2010, is believed to fully address all issues contained in the Office Action. Favorable reconsideration and allowance of the application are respectfully requested.

**Disposition of Claims and Claim Amendment**

As of the mailing date of the Office Action, claims 1-6, 8, 9, 11-13, 15 and 16 were all the pending claims for this application, from which claim 15 has been withdrawn from consideration.

In the current Amendment, claim 1 is amended to incorporate the features of claim 13, and claim 13 is canceled accordingly. Claim 1 is further amended to more clearly set forth the claimed subject matter by deleting “wherein the signal sequence of the overexpressed immunoglobulin constant region is processed,” for which the Examiner commented that the word “processed” was not clear.

No new matter is introduced.

Upon entry of the Amendment, claims 1-6, 8, 9, 11, 12, and 16 will be all the pending claims under examination.
